SUMMARY

Dynamic and results-driven Front-end Developer with extensive hands-on experience in designing and implementing responsive web applications for diverse platforms, including mobile and desktop. Highly skilled in HTML, CSS, JavaScript, Typescript, Node.JS, ReactNative and React.js, with a keen emphasis on writing efficient, maintainable code that adheres to best practices. Adept at leveraging strong communication and analytical skills to collaborate effectively with cross-functional teams and drive innovative solutions.

WORK EXPERIENCE

Front-end Developer, Datamellon, Lagos

Jan 2026 - Present

- Created and maintained the BillsNg Admin Dashboard with React.js, TypeScript, React-query, Shadcn, and TailwindCSS, thus facilitating the process of efficiently onboarding and managing service providers.
- Integrated FAST APIs for provider management, transaction history, and system monitoring services for seamless data flow between frontend and backend services.
- Worked as part of an Agile/Scrum team where I participated in sprint planning, code review meetings, and other collaborative work with the team.
- Helped as a secondary frontend developer to implement UI elements in the NSW (National Single Window) AI Analytics Dashboard.
- Worked on creating analytics dashboards and visualizing AI analytics results.

Front-end Developer, KonnectHq, Ibadan

Nov 2024 - Oct 2025

- Contributed to the development of a web application and website for a local services and culinary inspiration platform.
- Implemented responsive and user-friendly interfaces using Next.js, Shadcn, and Typescript for the website
- Collaborated with a team of frontend developers to build the web app and admin dashboard using React.js, TypeScript, Tailwind CSS, Redux, Shadcn, and Firebase.
- Implemented features such as: Real-time chat functionality between customers and service providers, responsive design for seamless user experience across devices.
- Utilized agile development methodologies to deliver high-quality solutions.

Front-end Developer(Contract), Gurugeeks, Lagos

Feb 2025 - Mar 2025

- Contributed to the development of a scalable and user-friendly HRM(Human Resource Management) and CRM(Customer Relationship Management) SaaS web application.
- Utilized Tailwind CSS, React, and Redux to ensure seamless functionality and enhanced user experience.
- Implemented cloud-native design principles to drive application performance and reliability.
- Collaborated with the team to deliver high-quality solutions, focusing on best practices and industry standards.

Front-end Developer(Contract), ApnaDevs, Islamabad, Pakistan

July 2024 - Dec 2024

- Played a key role in developing Onclasses, an online learning platform that allows users to register for courses, stream video lectures, and engage in social interactions.
- Translated Figma designs into a fully responsive and interactive user interface using React, Tailwind CSS and Redux.
- Integrated REST APIs to enable real-time content updates, smooth navigation, and dynamic interactions, improving platform efficiency

Front-end Developer, TechitCheap, Ilorin, Kwara

Jan 2024 - Dec 2024

- Developed Accessivo, a web app for purchasing data, airtime, electricity, and booking University of Ilorin shuttle bus tickets.
- Built the admin panel for the Unilorin shuttle bus system with role-based access for admins, managers, and volunteers.
- implemented features for ticket verification, user onboarding, transaction tracking, and revenue monitoring.
- Utilized React, Typescript, React query and Tailwind CSS to create a responsive and dynamic user experience.

Front-end Developer (Volunteer), United States of Africa, Nairobi, Kenya June 2023 - May 2024

- Collaborated with team in developing a video conferencing app called ZumaridiAfrica.
- Improved user engagement through intuitive UI/UX design.
- Enhanced web app performance through optimization techniques, ensuring smooth video conferencing for users.
- Implemented new features, such as recording capabilities and integration with calendar app
